Topaz Jacuzzi (93 SQM.)

This room category is named after the lustrous and brilliant gem Topaz, the birthstone for November. Honey yellow, fiery orange, cyclamen pink, icy blue, it has an exceptionally wide color range. Topaz is also pleochroic, meaning that the gem can show different colors in different crystal directions. Blue topaz is the gem of the 4th anniversary and Imperial topaz is the gem of the 23rd anniversary

Topaz Jacuzzi is equipped with an oversized jacuzzi, spacious bathroom with rain shower and a balcony.

Emerald One-Bedroom Pool Villa (100 SQM.)

Emerald is the bluish green to green variety of beryl, a mineral species that includes aquamarine. Its color reflects new spring growth, which makes it the perfect choice of a birthstone for the month of May. It's also the gemstone for twentieth and thirty-fifth wedding anniversaries. The first known emerald mines were in Egypt, dating from at least 330 BC into the 1700s. Cleopatra was known to have a passion for emerald, and used it in her royal adornments.

Emerald One-Bedroom Pool Villa is equipped with a private pool, spacious bathroom with rainshower and a balcony. It is a perfect choice for couples who seek privacy and relaxation.

Sapphire Two-Bedroom Pool Villa (140 SQM.)

For centuries, sapphire has been associated with royalty and romance. The association was reinforced in 1981, when Britain's Prince Charles gave a blue sapphire engagement ring to Lady Diana Spencer. Until her death in 1997, Princess Di, as she was known, charmed and captivated the world. Her sapphire ring helped link modern events with history and fairy tales. Sapphire is the birthstone for September and the gem of the 5th and 45th anniversaries.

Sapphire Two-Bedroom Pool Villa is equipped with a private pool, two en suite bedrooms, a common living area and a balcony. It is a perfect choice for small families or a group of friends.

Ruby Three-Bedroom Pool Villa (207 SQM.)

Ruby is one of the most historically significant colored stones. Rubies are mentioned four times in the Bible, in association with attributes like beauty and wisdom. In the ancient language of Sanskrit, ruby is called ratnaraj, or "king of precious stones."

Ruby is the most valuable variety of the corundum mineral species, which also includes sapphire. Rubies can command the highest per-carat price of any colored stone. This makes ruby one of the most important gems in the colored stone market. It is the birthstone for July and the gem for the 15th and 40th anniversaries.

Ruby Three-Bedroom Pool Villa is equipped with a private pool, three en suite bedrooms, a common living area and a balcony. It also has a direct access to Ruby Pool which is an outdoor pool shared with other Ruby villas. This is a perfect choice for large families or a group of friends. Guests may reserve three or four Ruby villas for their group to enjoy the absolute privacy and intimacy.

CONCEPTUAL RESIDENCE

The Legacy Conceptual Residence (1,500 SQM.)

As it turned out, the stone was sold on 13 November 2018 in Geneva for CHF50, 375,000 — equivalent to around \$50.66 million.
